A Few Words from the IATP

One year on from 007, Be Shaken not Stirred, Casino Royale and here we are at “The Great Gatsby” Annual Dinner & Awards Fund Raiser for our chosen Charity DAST.

I am so proud to represent IATP as the Non Voting Chair Person, we have moved mountains since April 2009 when we launched with just 4 Members, and we now represent nearly 100 individual asbestos training companies in the UK, NI & Guernsey. Many of our Members offer other asbestos related services so we do truly represent a well rounded reflection of the UK asbestos industry sectors.

The IATP Team at the 2013 Annual Dinner

As an organisation we must applaud and recognise the dedication of our Events Team, our Working Group & Task Teams and those that volunteer to make our fundraising events work. Whilst on the ground we also support and applaud those Organisations across the Globe and the people who are on the front line supporting patients, carers, backing and funding research for asbestos related diseases and campaigning for a Global Ban of Asbestos.

Our Annual Dinner and Awards are about Fun, Fundraising and bringing together our many related asbestos sectors in an environment that is decedent, comfortable with networking and opportunities for all.

Thank You for supporting IATP, Enjoy the Glamour of the 1920’s Great Gatsby. Thank You to the Organisations, Companies and Individuals who have donated to our fundraising auction and the Award Sponsors, without you all we would not be so successful.

Have Fun! & enjoy the experience & evening.

Mrs Christine Winter

IATP Communications & Non Voting Chair Person

The Derbyshire Asbestos Support Team

The Derbyshire Asbestos Support Team (DAST) helps and supports anyone diagnosed with an asbestos related disease. Sadly, the majority of people we help and support have been diagnosed with Mesothelioma or asbestos related lung cancer. We cover the whole of the East Midlands offering advice about benefits and compensation uptake. Moreover, we also act as a support group enabling victims to come together, share their experiences and find out about medical and legal advances. We also share information through our regular newsletters, so that no-one feels isolated or alone by their diagnosis. There is a tremendous Mesothelioma community willing to help and support each other. Our yearly conference – Mesothelioma In the Midlands, organised in conjunction with Asbestos Support West Midlands, will take place on Monday 12th May 2014 at the Spot Centre in Derby. We also organise an event for Action Mesothelioma Day each year and for the last two years have been pleased to work with Mesothelioma UK on making this event a success.

We are also a campaigning organisation and as part of the Asbestos Victims Support Groups' Forum have taken a proactive role in campaigning for an Employers' Liability Insurance Bureau, campaigning for improvements to the Mesothelioma Bill and improvements to benefits and compensation.

DAST also raises awareness about the dangers of exposure to asbestos. It is important that we think of future generations and work towards preventing these devastating diseases. We have supported IATP in their campaigns as well as producing an interactive project to raise awareness about the dangers of asbestos in the home. It is again with thanks to IATP for providing photographs, financial support and information for this project.

On an enormous house shaped screen we launched the project at Leicester Railway station last October. We have also been taking our one metre model around Trade Union Conferences and other events.

We would like to thank IATP for their continuous support of DAST. As a charity we rely heavily on donations to continue to support victims of Mesothelioma and other asbestos related diseases.

CLARKE'S
Environmental
Safe Solutions
HSE Licensed

Clarke's Environmental Ltd. was created in 2006 following concerns regarding falling standards within the asbestos removal industry. Owner of successful heating contractors H. Clarke and Sons Ltd., Richard Clarke financed the set-up of the company

and was granted an HSE license. Initially being granted the usual one year license in 2007 our commitment to high standards were rewarded with a three year standard condition license. The company has now expanded to nine expert teams of asbestos removal specialists covering every aspect of the industry. Our clients include blue chip companies, local authorities, demolition companies, the Ministry of Defence, police authorities, prisons and many domestic and commercial customers.

Our services include:

- Asbestos Removal, Transport and Disposal
- Onsite and off-site training
- Full surveying and accreditation

Clarke's Environmental Ltd

Head Office - 2 Moxon Court, Thurston Road, Northallerton. DL6 2NG

The 2014 Annual Dinner Programme Sponsor

Pattinson Scientific Services Limited

Pattinson Scientific Services Ltd is an independent asbestos analytical laboratory and asbestos inspection body providing a service to industry, local authorities and individuals.

We are proud sponsors of the IATP annual dinner and glad to offer our support to the marvelous work being carried out by DAST and others and also to be part of the recognition of those individuals whose contributions across the asbestos industry and beyond have made our industry and our lives so much safer.

Pattinson Scientific Services have been established in Newcastle upon Tyne since 1858 and hold a wealth of experience, with fully qualified specialist staff providing our services throughout the UK.

As members of IATP, we offer a range of asbestos training, both at our specialist training facility in Newcastle and at any premises throughout the UK.

We hold UKAS accreditation to ISO/IEC 17025:2005 for fibre counting of asbestos fibres in air, sampling of air for fibre counting, 4-stage clearance process, sampling of bulk materials for asbestos identification and the identification of asbestos in bulk materials. We also hold UKAS accreditation to ISO/IEC 17020:2012 for surveying for asbestos in premises - management, refurbishment and demolition surveys and priority assessment in domestic, commercial and industrial premises. We hold a license restricted to direct supervision of licensable work with asbestos issued by the HSE and frequently project manage asbestos removal projects for our clients. We also undertake removal and remediation of non-licensed asbestos materials.

We are flexible, independent and skillful in our approach. Our reports are interpretive, factual, clear and concise and have been commended by clients for their layout, content and ease of use.

Why not give us a try!

IATP 2014 Recognition Awards

The IATP Recognition Awards are about highlighting individuals that have made a difference and those that are continuing to make a difference within the many areas associated with asbestos. These awards are not just about individuals who only work directly with the asbestos industry but include fields that are affected by the asbestos industry.

The IATP Industry Contribution Award

Sponsored by ABP Associates Ltd

Awarded to Stephen Forster, BSc, MSc, CEnv, FGS, MIEnvSc,

Steve has 25 years asbestos and contaminated land management experience. He has a degree in Geology (B.Sc. Hons.) and completed an M.Sc. on Environmental Earth Science. He is a Chartered Environmentalist, a Member of the Institution of Environmental Sciences and a Fellow of the Geological Society. He Chairs the EIC/CL:AIRE Joint Industry Working Group on Asbestos in Soil and Construction & Demolition Materials.

He has been responsible for the technical and commercial delivery of a wide range of contract projects across the spectrum of the natural and built environment disciplines, including soil and groundwater contamination investigation, monitoring, assessment and remediation (in situ and ex situ) across a wide range of industrial and geoenvironmental settings. He has worked extensively on operational/closed military and defence sites, operational industrial sites in the rail, engineering, pharmaceutical, waste management and retail sectors, as well as on a nuclear-licensed facility. He co-authored a UK Department of the Environment research study on monitoring techniques and technologies for contaminated land as well as a study of the environmental and health & safety impacts of waste composting operations.

Having commenced his consultancy career in the field of asbestos monitoring, surveying and management, he has developed a particular expertise in the investigation, assessment and remediation of asbestos-contaminated land.

ABP ASSOCIATES LTD

Richard Pomeroy is the Managing Director of ABP Associates Limited, based Southampton. He has 28 years of experience in the asbestos Industry, having started at grass roots level following graduating with an Honours Degree in Applied Biology in 1985. Richard is currently the Chairman of the ARCA Technical Committee.

ABP Associates Limited are accredited for Asbestos surveying, bulk analysis, air testing, analysis of asbestos in soils and in aggregate. They are also providers of all of the BOHS asbestos proficiency modules. Richard is also a registered External Assessor for BOHS.

ABP associates deliver asbestos awareness courses in addition to training for licensable and non-licensable works at their training centre in Southampton. Over the years Richard has presented at numerous roadshows throughout the UK organised by BOHS and HSE when new asbestos legislation and guidance has been issued.

Richards international experience extends to working on and managing asbestos projects in the Europe, Africa and the Middle East.

Programme kindly sponsored by: Pattinson Scientific Services Limited

The IATP Life-Time Achievement Award

Sponsored by DS Environmental Limited

Awarded to Robin Howie

Robin Howie, an independent asbestos consultant and owner of Robin Howie Associates Ltd, Edinburgh has been actively involved in many high profile asbestos related cases across the UK for many years. Mr Howie past President of the British Occupational Hygiene Society, (1997 to 98) became involved in occupational hygiene in 1974. Has been very active, and a prominent figure in establishing the correct use and selection of suitable Respiratory Protective Equipment as well as identifying correct standards and performance of this equipment.

More recently Robin was asked to advise on the situation surrounding Cwmcarn School South Wales based on his extensive knowledge and experience of the area of risks of exposure to asbestos.

Robin has written many papers on asbestos and protective equipment, one most notable and recent document being his paper entitled; 'Effect of Children's Age and Life Expectation on Mesothelioma Risk'.

DS ENVIRONMENTAL LIMITED

DS Environmental is a family business established in 1989. Our work ranges from asbestos removal projects, consultancy, equipment hire to training the next generation of removal operatives, health and safety managers and allied trades to effectively manage the risks from asbestos to themselves and the wider public. We specialise in niche high profile projects which require meticulous management and demand the highest of standards. We work closely with our clients – whether that's on removal projects or delivering a bespoke training programme – to ensure a personalised approach which we develop from our extensive 'hands-on' knowledge-base.

From our base in Sheffield we have worked with national companies, allied trades and worried homeowners – all have one thing in common: a desire to be safe from asbestos health risks and to comply with what can be confusing regulatory requirements. Our clients and trainees say they like our down to earth approach; that we guide them through complex information and make it relevant and clear to them.

Our support of IATPs reflects our commitment to on-going development and improvement of the industry. High quality training which is independently audited forms a central plank to irradiating the unnecessary deaths each year from asbestos related diseases. IATP provides a trustworthy, credible service to training providers and those requiring training – we are pleased to be members and to sponsor the Life-Time Achievement Award.

The IATP Making a Difference Award

Sponsored by Trios Compliance

Awarded to Christine Knighton, MBE

Christine Knighton founded the Mick Knighton Mesothelioma Foundation (MKMF) after suffering a personal loss due to mesothelioma in 2001. The Mick Knighton Mesothelioma Research Fund is a voluntary fund where every penny raised goes towards promoting a greater awareness and sponsoring vital research studies into this asbestos cancer. It offers information and support to all whose lives have been affected by this devastating disease.

When Christine originally set up MKMR she aimed to raise £100,000 to help research into the illness, but has now reached over the £1m mark. Over this time, Christine has helped raise awareness of the illness, set up support groups and given help and support to other families and individuals affected by the condition.

Christine was awarded an MBE in 2012 for her services to Mesothelioma research. Not only has she successfully reached her target Christine has set up the first gene bank for mesothelioma research which will not only serve the UK it will cascade across the EU. Christine personifies turning Anger into Action, out of personal tragedy came a force for change.

TRIOS COMPLIANCE

Trios Compliance is part of Triosgroup Plc. A privately owned and fully funded national provider of facilities and property related services with extensive experience in retail, leisure / hospitality, commercial / corporate, education and healthcare markets.

We provide a full range of innovative and flexible Integrated Compliance Services (ICS) to corporate property portfolio's across the UK. We work closely with our customers to develop fully bespoke solutions, individually tailored specifically to meet their operational needs; managing statutory compliance and PPM services to either single sites or large portfolio's in a variety of environments.

Our services include the testing, certification, repair, maintenance and installation of: Fixed Wire Circuits (EICR) , Gas Safety Testing and Certification, Gas Servicing, Fire Alarms and Extinguishers, Emergency Lighting, Lighting, Portable Appliance Testing (PAT), HVAC, Ventilation and Extraction, Air Conditioning, F-Gas, Water Testing (L8 Legionella), Lightning Conduction, CCTV, Generator, UPS

Why does Trios Compliance support the IATP with sponsorship?

Our companies' objective is to create safe, compliant and comfortable buildings for our client's staff and customers. To achieve these exceptional high levels of service we believe it is imperative to have close partnerships with independent professional organisations that give us fantastic insight and support in specialist areas. IATP give us fantastic solutions in asbestos training to ensure we can provide all our Tradesman and Woman with the most up to date training to ensure our staff and customers are in safe environments.

We believe "The IATP 2014 Recognition Awards" is an ideal way to create more publicity to the dangers of Asbestos and Asbestos related illnesses and reward those who are relentlessly challenging and working for a better recognition of its effects. Trios Compliance being a forward thinking company, always looks to support initiatives that help make working environments become safer and better places to be, which is why we continue to work closely with IATP and support this event and the work it does.

The IATP Meso-Warrior Award

Sponsored by Award Health & Safety Ltd

Awarded to Liz Darlison

Liz's interests within lung cancer have always focused on developing the nursing contribution, within the multidisciplinary team, to improve patient and carer experience across the whole cancer pathway. To meet demand locally and nationally Liz developed an interest in Mesothelioma which resulted in the establishment of Mesothelioma UK, the National Macmillan Mesothelioma Resource Centre. Liz is a Mesothelioma Nurse at Leicester Hospital and is also very heavily involved in Mesothelioma UK, a resource centre dedicated to Mesothelioma. The centre co-ordinates communication and information about everything relevant to mesothelioma throughout the UK. They support any initiative that seeks to improve the life and experiences of mesothelioma patients and their careers. Liz is currently a Consultant Nurse leading the development of Mesothelioma UK.

In 2007 Liz was awarded the Nursing Times Cancer Nurse Leader of the Year Award sponsored by the Royal Marsden NHS Foundation Trust. Liz is the former chair (until January 2011) of the National Lung Cancer Forum for Nurses and represents nursing on a variety of national and professional committees.

Liz travels the UK and the world providing lectures. She also provides constant support to the Mesothelioma Warriors, including helping them to find the latest trials and treatment. Liz works tirelessly for the Mesothelioma Community and was nominated for this award by individuals who suffer from mesothelioma.

AWARD HEALTH & SAFETY LTD

Award Health & Safety Limited provides a full range of Health & Safety and Asbestos related services including Training, Consultancy, Management and advice. All of our consultants are trained to a high standard and services can be provided in both English and Polish. We have been recognised over the last couple of year for our dedication and hard work, most recently being announced as the runner up in the *Small/Med Business of the Year for 2012* in the Portsmouth News Business Excellence Awards.

As long standing members of the IATP we strongly believe in what the IATP stands for and it's focus within the industry. Our commitment to the IATP is shown through our dedication to attending working groups, task teams and sitting on the board of directors.

Award Health & Safety Limited is exceptionally proud to be the Sponsor of the first IATP Meso Warrior Award; of all the Awards this one is especially poignant in recognising the "Human Tragedy" of asbestos exposure.

Mr Chris Ward. Dip NEBOSH, MIIRSM, MRSPH, ACMI, Grad IOSH

The 2014 Annual Dinner Table Sponsor

Our business specialises in building compliance solutions, in particular asbestos management, asbestos awareness training, water hygiene, legionella management and general health, safety and environmental solutions. Critically important requirements in the provision of our asbestos consulting services are the company's technical accreditations. DMW hold accreditation for ISO 14001, Environmental Management Systems, ISO 18001 Occupational Health and Safety Management Systems, ISO 17020 for asbestos surveying and ISO 17025 for bulk analysis, air monitoring and site reoccupation certification after hazardous asbestos has been removed.

A significant part of DMW,s business is asbestos training as such we recognise the importance of standards being maintained at all times and wanted to be part of an organisation that would meet these high standards, this was the deciding factor why we have been involved with IATP since its inception, I sit on the technical board of directors and am passionate about and dedicated to the organisation. Another core reason of joining IATP was the ethos within the group, like minded professionals providing impartial good quality training to all allied industries and ensuring the training courses being delivered meet best practice guidance requirements and delivering courses that are independently audited to ensure that high standards are maintained.

Auction Prizes

The prizes below will be auctioned off via a silent auction.

Each lot will have a corresponding box, complete a bidding slip and place into the box. No-one will know what the highest bid is until the winners are announced, so make sure you put on the amount you are will to pay and don't tell anyone. Try to make your bids a little unusual, eg. £151.41.

We would like to say a big thank you to all those who have kindly donated prizes.

Signed Limited Edition “The Female Faces of Britain's Asbestos Catastrophe”

Donated via IBAS

A framed and signed artwork by Colombian artist Guillermo Villamizar. Over an 18 month period, Villamizar researched the tragic and far-reaching impact asbestos has had in countries all over the world. He was shocked by what he learned and set off to transform this knowledge into a “vehicle which could help to change life.” The result of his efforts

can be seen in a stunning new piece of work entitled: *The Female Face of Britain's Asbestos Catastrophe* . The piece is one of only 10 and has been signed by the artist

Limited Edition “Justice Has No Timeline” artwork

Donated via ADAO

Framed Artwork, "Justice Has No Timeline." The piece was made possible by collaborative efforts by Ann Samuelson and Rebecca Read. Ann is tirelessly dedicated to advancing education, advocacy, and community efforts to prevent asbestos-caused diseases.

Signed copy of “Steve McQueen; The Last Mile”

Donated by the IATP

The book chronicles Barbara's early history and modelling career; her years with McQueen at Trancas Beach and Santa Paula as well as behind-the-scenes photos on the sets of Tom Horn and The Hunter. This popular book now expanded with additional photographs is a must have for the McQueen fan. Signed by Barbara McQueen

1 Day, Salmon, Sea or Brown Trout Fishing on the River

Tamar

Donated by Asbestos Jobs Online & the Endsleigh Fishing Club

The successful bidder will receive a day's finishing at the Endsleigh Fishing Club on the River Tamar. The 7 mile stretch of the river is of outstanding beauty and serenity. Nearly all of the pools can be accessed by car along a private track.

The club's ghillie will also be available to provide 1 hour tuition.

Lanson Black Label Champagne Gift Set, with Chocolates

Donated by Beaumont (BIACS) Ltd

Lanson Black Label Gift set, which includes 2 branded Lanson Champagne Flutes. The Gift set also comes with luxury chocolates.

Boxed Taittinger Champagne

Donated by CNM Training Solutions Ltd

Taittinger's origins date back to 1734 with the founding of the original House by Jacques Fourneaux. The Taittinger link was established in 1931 when Pierre Taittinger acquired the House. Today, the Reims based House is one of the few key Champagne houses to remain owned and actively managed by the family named on the label.

Programme kindly sponsored by: Pattinson Scientific Services Limited

Kobo Mini E-Reader in Black

Donated by DMW Environmental Safety

Kobo Mini is the world's smallest and lightest full-featured eReader, so it's great for reading on the go. Complete with a no-glare natural Pearl E Ink touchscreen and built-in Wi Fi, it's the full Kobo experience.

Chanel No. 5 Perfume

Donated by CNM Training Solutions Ltd

Chanel No. 5^[1] was the first perfume launched by Parisian couturier Gabrielle "Coco" Chanel. In 1920, when presented with small glass vials containing sample scent compositions numbered 1 to 5 and 20 to 24 for her assessment, she chose the fifth vial. Chanel told her master perfumer, Ernest Beaux: "I present my dress collections on the fifth of May, the fifth month of the year and so we will let this sample number five keep the name it has already, it will bring good luck."

Large Plush Cuddly Toy

Donated by Mr & Mrs Nye,

No charity auction or raffle would be complete without a cuddly toy. A large black and white collie plush soft toy .
